REQUIREMENT RR/HTA/E/R19/57: Describe changes since World War II in the Iasi Railroad Transfer Site "Socola".

REMARKS:

The Iasi Railroad Transfer Site "Socola", located in northeast Rumania, functions primarily as a change-of-gauge station at the Rumania-USSR border.

A comparison of [REDACTED] photography with that of [REDACTED] indicates that this installation has approximately doubled in size since World War II. A large new warehouse and storage area has also been constructed in the northern section of the site. However, partial cloud cover and lack of stereo coverage preclude a more detailed description of changes that have taken place since [REDACTED]
